

HDMI to DVI Adapter Cable (M/M), 12 ft. (3.7 m)

MODEL NUMBER: P566-012

Creates a pure bi-directional digital connection between a DVI-enabled source and an HDMI-enabled display or an HDMI-enabled source and DVI-enabled display.

Description

This DVI - HDMI cable allows interconnection between digital display devices, including HDTVs and projectors, to digital source devices, such as satellite/cable boxes, Blu-ray players and AV receivers. HDMI DTVs will display video received from existing DVI-equipped products, and DVI-equipped TVs will display video from HDMI sources. HDMI technology uses a much more compact and user-friendly connector than the existing DVI connector. The HDMI specification handles higher bandwidth, uncompressed video and multi-channel digital audio, all in one neat cable solution. (DVI-HDMI cable supports digital video only).
