

SmartOnline 2000VA 1800W 120V Double-Conversion UPS - 7 Outlets, Extended Run, Network Card Included, LCD, USB, DB9, 2U Rack/Tower

MODEL NUMBER: SU2200RTXLCDN

Provides pure sine wave output in education, healthcare, military, government and other IT applications in small or mid-size networks.

Features

Double-Conversion UPS Protects Equipment Against Damage, Downtime and Data Loss

This on-line double-conversion UPS system maintains perfect output by converting AC input to DC, then reconverting UPS output to fully regulated sine wave AC. Constant on-line operation completely isolates sensitive equipment from every power problem on the AC line. The SmartOnline® SU2200RTXLCDN provides the highest level of power protection and battery backup for education, healthcare, military, government and other mission-critical IT applications where space is limited, but premium power reliability is essential.

Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages

The field-replaceable, hot-swappable VRLA battery modules allow you to work through short power failures and give you enough time to safely save files and shut down your system in case of a prolonged blackout. Zero transfer time between on-line and battery modes maintains continuous operation of connected equipment without interruption or rebooting. Extra runtime is available by connecting up to four optional extended battery modules (BP72RT, sold separately).

Pre-Installed LXE Platform Network Management Card Allows Remote Access 24/7

The WEBCARDLXE network interface enables full remote configuration and management, including load shedding, reboots of connected equipment and safe shutdowns. The IP-based Auto Probe feature ensures continuous network uptime by communicating with other network devices, detecting lost connectivity and automatically rebooting IT equipment. Optional EnviroSense2 modules (E2MT, E2MTDO and E2MTHDI, all sold separately) provide a variety of environmental monitoring and control options.

NEMA Outlets Protect Your Connected Components

One L5-20R and six 5-20R outlets provide connected equipment with pure sine wave AC output and allow you to manage power consumption down to the outlet group level. Power provided by these outlets is filtered to protect connected equipment against damaging surges and line noise. Four 5-20R outlets are grouped into two load banks that let you shed non-critical loads to extend runtime for critical loads.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform

Highlights

- Updated design for 2023
- Protects equipment against blackouts, brownouts, transient surges and line noise
- Keeps equipment running during outages to allow time for file saves and safe shutdown
- Zero transfer time between online and battery modes for uninterrupted operation
- Included WEBCARDLXE network card enables full remote access and control 24/7
- Menu-driven LCD keeps you up to date with status info and other vital analytics

Package Includes

- 2000VA 1800W 120V Double-Conversion UPS
- WEBCARDLXE network management card
- USB cable
- DB9 RS232 cable
- Rack-mounting hardware
- Tower support stands
- Safety instructions
- Quick start guide

better and last longer.

Clear LCD Interface Keeps You Informed at a Glance

The menu-driven front-panel LCD provides detailed alarms and notifications to help diagnose any issues. It provides system status, event logs, battery and power module status, usage analytics, serial number, firmware update info and more. Audible alarms can be disabled through the front menu when the UPS goes to battery power. The LCD rotates to accommodate both rack-mount and tower installation.

Advanced Communications Ports Allow for Automatic Saves and Shutdowns

RS-232 and USB ports connect to a device for a variety of communication options (cables are included). A dry-contact relay port can be programmed through the LCD to provide reliable communications to automation and industrial components. The RPO/ROO port permits emergency shutdown or remote restart of all connected equipment. Automatically Turns Back On After Power Is Restored Battery-independent restart ensures automatic UPS power-up without user interaction after lengthy power outages, even after a complete battery discharge.

Versatile Installation Options

You can mount the SU2200RTXLCDN in just 2U of space in an EIA-standard 19-inch rack using the included hardware. You can also adapt it for tower installation using the included support stands or add the optional RK2PC (sold separately) for 2-post rack mounting. The eight-foot power cord with NEMA 5-20P plug connects to a compatible AC outlet.

Specifications

OVERVIEW	
UPC Code	037332182982
UPS Type	On-Line
INPUT	
Input Phase	Single-Phase
Rated input current (Maximum Load)	16A
Nominal Input Voltage(s) Supported	100V AC; 110V AC; 120V AC
Nominal Input Voltage Description	120V factory default
UPS Input Connection Type	5-20P
UPS Input Cord Length (ft.)	8
UPS Input Cord Length (m)	2.4
Recommended Electrical Service	120V
Maximum Input Amps	16
Input Plug Type	NEMA 5-20P
Input Current	16A
Power Factor (Input)	0.99
оитрит	
Output Capacity (VA)	2000
Output Capacity (kVA)	2

Output Capacity (Watts)	1800
Output Capacity (kW)	1.8
Power Factor	0.9
Crest Factor	3:1
Nominal Voltage Details	120V factory-default nominal voltage
Frequency Compatibility	50 / 60 Hz
Frequency Compatibility Details	Online Mode: Sync with line ±5% of nominal line frequency (outside this range: ±0.5% of auto-selected nominal frequency). Battery Mode: ±0.5% of auto-selected nominal frequency
Output Voltage Regulation (Line Mode)	+/- 1%
Output Voltage Regulation (Economy Line Mode)	+/- 1%
Output Voltage Regulation (Battery Mode)	+/- 2%
Load Management Receptacles	Two switchable two-outlet load banks
Output AC Waveform (AC Mode)	Pure Sine wave
Output AC Waveform (Battery Mode)	Pure Sine wave
Nominal Output Voltage(s) Supported	100V; 110V; 115V; 120V; 127V
Output Receptacles	(6) 5-20R; (1) L5-20R
Individually Controllable Load Banks	Yes
BATTERY	
Battery Type	Valve Regulated Lead Acid (VRLA)
Runtime Full Load (min.)	7.7 min. (1800W)
Runtime Half Load (min.)	20.2 min. (900W)
Expandable Runtime	Yes
Expandable Runtime Description	Add up to 4 extended battery modules (EBM). Part number BP72RT *Note: BP72RT is compatible only with the SU2200RTXLCDN 2023 UPS design update featured on this page. For previous SU2200RTXLCDN design battery pack functionality, please see the Legacy Product Datasheet under the Support tab, Documents & Downloads section.
External Battery Pack Compatibility	BP72RT
DC System Voltage (VDC)	72
Battery Recharge Rate (Included Batteries)	3 hours recharge to 90%
Battery Access	Battery access door

Internal UPS Replacement Battery Cartridge	744-A3121 *Note: 744-A3121 is the replacement battery for the SU2200RTXLCDN 2023 UPS design update featured on this page. For the replacement battery in the previous design of SU2200RTXLCD2U , please see the Legacy Product Datasheet under the Support tab, Documents & Downloads section.
Battery Replacement Description	Hot-swappable, user replaceable batteries
VOLTAGE REGULATION	
Voltage Regulation Description	Online, double-conversion power conditioning
USER INTERFACE, ALERTS & CON	TROLS
Front Panel LCD Display	Front panel LCD information and configuration screen offers detailed UPS and site power status and operating data, plus configuration of voltage, frequency, operating mode, alarm function and a variety of additional options
Switches	RPO / ROO
Alarm Cancel Operation	Power-fail alarm can be temporarily silenced using alarm-cancel switch; silent mode alarm configuration option available
Audible Alarm	Audible alarm indicates UPS startup, power-failure, low-battery, overload, UPS fault and remote shutdown conditions
LED Indicators	4 status-indicating LEDs
SURGE / NOISE SUPPRESSION	
EMI / RFI AC Noise Suppression	Yes
AC Suppression Joule Rating	190
AC Suppression Response Time	Instantaneous
PHYSICAL	
Primary Form Factor	Rackmount
Rack Height	2U
Cooling Method	Fan
Installation Form Factors Supported with Included Accessories	4 post 19 inch rackmount
Installation Form Factors Supported with Optional Accessories	2 post rackmount (RK2PC)
Minimum Required Rack Depth (cm)	68.07
Minimum Required Rack Depth (inches)	26.8
Optional Mounting Accessory Notes	2 post rail kit available, part # RK2PC
Shipping Dimensions (hwd / in.)	9.45 x 22.84 x 30.71
Shipping Dimensions (hwd / cm)	24.00 x 58.01 x 78.00
Shipping Weight (lbs.)	76.28
Shipping Weight (kg)	34.60
UPS Housing Material	Metal
